

Abbot Beyne School
Everyone a Learner. Everyone Learning.

Onward Together

Rationale For Year 7 Onward Together Curriculum

- ❑ Supporting young people with the difficult move to secondary education.
- ❑ Train the new arrivals in our routines, procedures and expectations
- ❑ Breadth of learning experiences that challenge all abilities.
- ❑ To give students confidence and independence to become **Responsible, Respectful, Resilient** learners with a passion and enthusiasm for learning.
- ❑ To ensure students are iPad competent from the outset.
- ❑ To give students the best possible start to becoming successful learners at Abbot Beyne School.

Year 6 Prospectus - Onward Together

Onward Together is our new innovative Year 7 curriculum programme, launched in September 2021. An experienced team of Humanities teachers will ensure your child receives a supportive start to their learning at our school. Onward Together is an expertly planned progressive curriculum that uses the latest approaches to learning alongside iPad learning technologies. Learning is focused on 'Our Values' at Abbot Beyne School: **Respectful, Responsible and Resilience**. Onward Together is rich in experiences, where you make memories with your friends.

Your first 8 days at Abbot Beyne School is entirely dedicated to learning in 'Onward Together'. Students will be taught through a series of exciting learning challenges about daily life at the school; setting academic goals; learning how to use your iPad and getting to know your new friends by creating a new business.

For the Autumn term students will work alongside their dedicated Onward Together teacher for our extended 'Onward Together' curriculum. Can you graduate by achieving all the badges in our prestigious iPad learning passport? Ever thought about being on TV or the radio? Let's travel the world through our World Fayre carnival. You have so much to look forward to.

During the Spring and Summer terms students will be taught the discrete subjects of History, Geography, Religious Education and Personal Development. This will give students their first experience of these fascinating subjects and teach the essential skills to be successful at Key Stage 3, 4 and 5.

We look forward to welcoming you in September.
